

Project Name: Emala Education
Platform: Web & Mobile Application
URL: <https://emalaeducation.com/>

Testing Type: Manual Testing

Testing Scope: Functional Testing, UI/UX Testing, Responsive Testing, Regression Testing

Objective: The objective of this testing was to evaluate the functionality, usability, responsiveness, and UI consistency of the Emala Education platform across both web and mobile applications. The testing focused on authentication flows, course functionality, payment and enrollment process, media accessibility, responsive behavior, and overall user experience.

Modules Tested

- Login & Authentication
- Google Authentication
- OTP Validation
- Forgot Password / Update Password
- Profile Update
- Homepage & About Us UI
- Category Filter
- Course Enrollment
- Add to Cart Functionality
- Payment Flow
- Contact Us Form
- Social Media Icons
- Download App Buttons
- Zoom Classes / Video Quality
- PDF & Learning Materials
- Responsive UI Testing
- Navigation & Session Management

Test Execution Summary

- **Total Test Cases Executed:** 24
- **Passed Test Cases:** 14
- **Failed Test Cases:** 10

Conclusion: The Emala Education platform demonstrates stable functionality in major learning, enrollment, and media related modules. However, several UI inconsistencies, authentication issues, and backend related errors were identified that affect overall user experience and reliability. Addressing these issues would improve application stability, responsiveness, and usability across platforms.
